Lebanon County  
Commission for Women

Welcome

Dear Friends,

Thank you for joining us in celebration today, as we highlight 11 dynamic women – our 2022 Hall of Fame Inductees. We are very thankful to be here today, as last year we were restricted in various capacities due to challenges resulting from the pandemic.

In 2022, it is time for us to continue our work of building community and prompting healthy connections, as there is much to be done. Women are a powerful force and when we unite and work together, we can accomplish phenomenal tasks. The Commission for Women work to support many organizations in our community including the Girls on the Run, Junior Achievement, a mentoring program for young women in the community, and we are currently developing a scholarship to honor local high school graduates and aid them in fulfilling their dream of obtaining a post high school degree or certification.

The Commission for Women had the honor of being granted, by the Lebanon County Commissioners, a proclamation for World Women's Day. As a result, for the first time this year, March 8, 2022, was recognized as World Women's Day in Lebanon County, Pennsylvania. We also had the pleasure this year of hosting the Glass Slipper Project, after a two-year hiatus due to the pandemic. We are excited to celebrate Women's History Month with you today through our Hall of Fame luncheon.

The Commission for Women's Hall of Fame is a true honor as chosen illustrious individuals are honored for the significant contributions they have made to our community. These individuals are great examples of the greatness one person can accomplish, and with the combined spirit and commitment of all women in Lebanon County, we can move mountains. The Lebanon County Commission for Women will continue to advocate for increased opportunities for women to achieve positions of leadership in business, government, and the professions. We welcome each of you celebrating with us today to join us in uplifting the women in our community.

Sincerely,

Amanda Davis-Buie

LEBANON COUNTY  
Commission for Women

## About the Commission for Women

The Lebanon County Commission for Women was established in 2003 by the Lebanon County Commissioners. It serves as a conduit to them on issues of concern to women in Lebanon County. The mission of the Commission is to promote awareness, be a catalyst for change, and facilitate action in matters pertaining to women and their families.

## About the Women's Hall of Fame

The first order of business after the Commission was implemented was to assess the community resources available to women and children. With that information, the commission developed a partnership with PROBE and assisted with the financial literacy workshops. Additional needs were recognized, but financial resources were extremely limited.

Initially, the Lebanon County Commission for Women observed Women's History Month through the development of news articles about Lebanon County women of historical interest. As commission members researched these historical women, it became clear that many contributions that women made or continue to make to the quality of life in Lebanon County had not been recognized.

In late 2009, Commission member Beverly Heishman conceived the concept after researching Women's Hall of Fames and presented it to Cindy Heisey, Commission Chair at the time. From there, it was presented to the commission. Its potential was realized and the project implemented.

The first Lebanon County Commission for Women's Luncheon and Hall of Fame celebration on March 10, 2010, coincided with the thirtieth anniversary of National Women's History Month. It was decided to hold subsequent celebrations as close as possible to March 8th, International Woman's Day. Over the years, the date was moved to later in the month to avoid inclement weather.

The purpose of the Lebanon County Commission for Women's Hall of Fame is to celebrate women who are Hidden Heroes, who work or live in Lebanon County. We honor women who make a difference in our community. Often, these women go unrecognized, and when recognized, soon forgotten. Each of these individuals contributes to the history in Lebanon County. Since our inception, we have been both researching and recording women's history; then posting it to our web page listed in this program, thereby preserving their place in history. The proceeds raised from this event are used to fund Commission projects.

In the early years, the proceeds were used to contribute to the Susan Funk Klarsch Memorial Garden at White Deer Run, H.O.P.E.S Family Shelter, and the Lebanon Historical Society for the preservation of women's history.

At the conclusion of today's function, 136 Lebanon County Sheroes (she + hero = shero) have been celebrated. Their stories preserved for posterity.

### Hall of Fame Pin

Our inductees will receive a Hall of Fame pin. It is an original work of art created by local artist, and past HOF award recipient, Yasmin Brown. Each pin is an original handcrafted, one of a kind creation that is as unique as the individual receiving it.

The pin base is made of multicolored dichroic glass. This type of media provides different ways to create a unique play of colors on each pin. The uniqueness of the base symbolizes the uniqueness of the award recipient.

The feminine image on the pin represents three characteristics of the recipients. The base of the image is the shape of a diamond which represents the solid foundation of the recipient. The raised arms represent the innate strength of the recipient. The heart shape of the reaching arms represents the recipient's warmth and caring.

### The 2022 National Women's History Theme

#### "Women Providing Healing, Promoting Hope"

The 2022 Women's History theme, "Providing Healing, Promoting Hope," is both a tribute to the ceaseless work of caregivers and frontline workers during this ongoing pandemic and also a recognition of the thousands of ways that women of all cultures have provided both healing and hope throughout history.

Women as healers harken back to ancient times. Healing is the personal experience of transcending suffering and transforming it to wholeness. The gift of hope spreads light to the lives of others and reflects a belief in the unlimited possibilities of this and future generations. Together, healing and hope are essential fuels for our dreams and our recovery.

This year, in particular, we are reminded of the importance of healers and caregivers who are helping to promote and sustain hope for the future. The NWHF encourages communities throughout the country to honor local women who bring and have historically brought these priceless gifts to their families, workplaces, and neighborhoods, sometimes at great sacrifice. These are the women who, as counselors and clerics, artists and teachers, doctors, nurses, mothers, and grandmothers listen, ease suffering, restore dignity, and make decisions for our general as well as our personal welfare.

Women have long advocated for compassionate treatments and new directions in public health and in women's mental and physical health. Women have also historically led the way in mending divisions, healing wounds, and finding peaceful solutions. This timeless work, in so many ways and in addition to so many other tasks, has helped countless individuals in our communities recover and follow their dreams.

The 2022 theme proudly honors those who, in both public and private life, provide healing and promote hope for the betterment of all.
