

Route 72 / Cornwall Road Corridor Study Survey

The Lebanon County Planning Department as staff support for the LEBCO MPO (Lebanon County Metropolitan Planning Organization) and its programs has partnered with WSP and is conducting a transportation study of the Route 72 and Cornwall Road corridors between Oak Street in Lebanon and Rt. 419 in Cornwall & West Cornwall.

Route 72 is a north-south principal arterial connecting Lebanon to Lancaster and the Pennsylvania Turnpike, while Cornwall Road is a parallel corridor serving local and regional traffic. Both corridors have experienced growth, congestion, and safety challenges.

This study will evaluate **traffic operations, safety, pedestrian and bicycle access, and access to adjacent properties**. Your feedback will help identify issues and shape recommendations to improve safety, mobility, and access for all users. We ask you to fill out the online survey using the QR code, attend a public open house, or fill out this paper survey to provide feedback. Mail to Lebanon County Planning Department, c/o Jon Fitzkee, Room 206, 400 South 8th Street, Lebanon, PA 17042. Una encuesta en español está disponible en línea o se puede solicitar.
